## Therapeutic Intervention Program (TIP)

Our Therapeutic Intervention Program (TIP) is a specialized program that meets the needs of students experiencing mental health issues, school adjustment issues, trauma history, behavioral and social challenges, and other issues interfering with accessing grade-level curriculum and making substantial progress.

TIP offers a supportive environment to students with average to above-average cognitive profiles. Programs are developed based on students' grade and skill levels utilizing engaging curriculum to meet the specific needs of the students, who are held to high academic standards. The rigorous curriculum outlines clear learning outcomes with matching assessments. Clinical support is provided in both individual and group modalities. All related services are available as necessary for all students; vocational and transition services are provided to students age 14 and older.

All CASE programs are staffed with licensed teachers, teaching assistants, Registered Behavior Technicians, Board Certified Behavior Analysts, Occupational Therapists, Speech and Language Pathologists, Physical Therapists, and other related service therapists, including reading specialists, teachers of the visually impaired, orientation and mobility therapists, and assistive technology specialists. The specific mix of professionals and services is dictated by the individual student's IEP.

Programs are available as school year programs, supplemented by an Extended School Year program during the summer. Academic, behavioral, and diagnostic assessments are provided.

Be it in public schools or DESE approved public day setting, our programs offer inclusion opportunities and appropriate school activities that promote a full spectrum of meaningful experiences. Our programs allow students to benefit from the richness of a highly specialized and diverse team of faculty and staff.

*We looked at twelve middle school programs and were lucky enough to meet Jenny right near the end of our search. There are so many incredible things about the CASE program to us and it absolutely starts with the teachers, staff and administrators. It is an incredibly dedicated and skilled group who truly want the best for each student and have the capability to meet them at their level. We appreciate that the program is able to support our son's skills and interests, while also working with him on any challenges - all while undertaking a broad academic package. The fact that it is in a school setting is also a great asset. Our son enjoys school, likes attending and appreciates the community at CASE deeply. It has been an incredible experience and we are so thankful for the amazing and dedicated professionals who make it happen every day.*
